WHAT'S THAT NOISE ?

When you hear the emergency warning sirens in Fayette County Parks and Recreation areas, you need to take immediate action. The Fayette County 911 Center will sound these sirens for three to five minutes when the National Weather Service issues the following:

- A significant weather alert with lightning, hail, and damaging wind for the area.
- A severe thunderstorm warning with damaging winds.
- A tornado warning.
- A tornado has been spotted by public safety officials or reported by the public.
- Additional weather warnings are issued.

TAKE IMMEDIATE ACTION

- When siren sounds immediately leave the playing field and seek shelter in a safe area.
- If during a storm, you are outside in open areas away from shelter, lie flat on the ground away from trees until the storm passes.
- Tune to local radio station for weather updates.

DO NOT CALL 911 TO ASK WHY THE SIRENS ARE SOUNDING AS THIS CAN OVERLOAD THE 911 EMERGENCY RESPONSE SYSTEM.
